FREW & CAMPBELL

FRIDAY, MAY 12, 1876.

OHIO COUNTY .- There are now five subordinate granges in this county, viz: Poto mac, Fairview, Point Mills, White Oak and State Line. Of the first named, J. T. Montgomery is Master; of the second, Thos. Buchanan; of the third, Wm. Gaskin; of the fourth, David Whitham; of the fifth. David Atkinson.

It is a regulation of the Grange Order that any county having five subordinate granges is entitled to-organize a Pomona Grange, which latter is a grade higher than a subordinate lodge, al though we are not informed as to the exact respects wherein it is higher. One feature of it is that it only holds monthly meetings, whereas the subordinates semi-monthlies. Another feature is that it entitles the county to a purchasing agent. This agent must needs enter into bonds for the faithful discharge of his duties. He obligates himself, in other words, that he will truly account for any money paid to him for the purchase of farm implements, supplies, etc. The advantage of such an agent consists in the fact that he is recognized abroad by any general agent of the grange, or by any manufacturer or dealer from whom the granges are accustomed to buy, and the granges are accustomed to buy, and they are not afraid to ship goods to his order, knowing that he is under bond and is a responsible party. Through him the grangers of the vicinage order whatever they desire, be the same ploughs, harrows, mowers, rakes, or any other article of husbandry, and each and every article they get at granger would be granger at granger of the vicinage order whatever they desire, be the same ploughs, harrows, mowers, rakes, or any other article of husbandry, and each and every article they get at granger world's Fair. every article they get at granger prices, which are said to be decidedly lower than other prices. For instance, Mr. James Cease, of Potomac, informs us that a "sulky rake," which is sold by outside dealers at \$35,

is furnished by the Grange agents at \$19.
As every body knows, the Grangers have stores of their own. Not exactly their own either. It is only such stockholders as take one or more shares in the capital stock of said stores that get enefit of "rock bottom" prices for goods. A stockholder gets his supplies at these stores at one per cent above cost. Other parties pay the susual prices for what they buy. There are two of these stores in this county—one at Potomac and one at Point Mills. They do a general merchandise business with their Butter is quoted at 20 cents, eggs 10 respective communities, but grant their

favors only to stockholders. Coming back, however, to "Pomona" grange, we are informed that it was organized last Saturday, at Point Mills, by the following persons, delegates for that purpose from their several granges, viz.: from Potomac grange, James Ferris, Jo-seph Hervey, Miss Muldoon, and J. T. Montgomery and wife. From White Oak, Daniel Whitham and wife, John Ferris, Jr., and Miss Carrie Whitham. From State Line, David Atkinson and wife, B. T. Yates, Marlin Pollock, and Mrs. Mary Ann Slater. From Fairview, James Creighton, Joseph Gray, Thomas Buchanan, Miss McConnel and Mrs. Mary Creighton. From Point Mills, Presley Sisson, J. H. McConn and wife, C. S. Ferrell, and William Gaskins and wife. These persons met at Point Mills last Saturday and organized a "Pomona" grange at the house of Mr. William Gaskins, by whom the delegates were entertained with a good old-fashioned din ner—a "square meal" in every respect. The ladies who assisted, with their own fair hands, in getting up this bountiful repast, were Mrs. Gaskins, Mrs. McConn, Mrs. Presley Sisson, and Miss Higgs, and to them the delegates desire to return their grateful remembrances for a large share of the enjoyments of the occasion.

ONE of the difficulties in this reform business is, that the politicians of each party want the other fellows to be the reformers, so to speak; having an objection to swallowing the medicine themselves The correctness of the principle is con ceded all around, but there is a lively desire on both sides to pick out the time for the practical application. If the present Republican office-holders and their pa trons were quite sure in their minds that the Democrats are to win in November, ninety-nine in every hundred of them would develope a zeal for civil-service reform that would be edifying to behold. So, when the Democrats get the Republicans all turned out and the offices filled with their own sort of folks, the proposition to take the service out of politics may be expected to command much more fore fallen from 10 cents a yard to respectful consideration in that quarter than it has yet done. This is politician nature, and human nature. But it doesn't facilitate the work of reform.

Tur First United Presbyterian church of Philadelphia, lately expelled T. M. Stewart, one of its members, on the ground that he was an Odd Fellow, and the pres bytery to whom the case was appealed sustains the action of the church, This matter has excited considerable interest in the order and in the church, but it appears that the rules of the church to which Mr. Stewart belonged prohibited members from joining secret societies.

ings in advance through agencies unless you are familiar with the city, and have made up your mind as to the quarter you wish to live in, or have friends to choose for you. Otherwise you may find yourself billetted off in a hot and unaxy ory by-street at a long distance from the Exhibition and from all other points of attraction. If you intend to stay only a few days, the hotels near the Exhibition will be, on the whole, the most desirable; but if you mean to remain longer than a week, go fifst 'to' one of those establishments or to one of those establishments or to one of the hotels in the city proper, and then look up lodgings to suit you in a private house. Do not come with the idea that you are going to see an enlarged State lair that can be "done" in a single day. Nothing less than a week of steady application will suffice for a rapid survey of the great show. In the Main Euilding alone there are eleven miles of aisles and passage-ways between the lines of show cases. If you are absolutely limited to three or four days, you would better divide your time as follows: devote the first day to taking a general look at the interiors of the six principal buildings—(in six or seven hours of hard tramping you can get through them all)—then make up your mind what department you most want to see and devote the rest of your time to seeing it thoroughly, so as to take home some clear and lasting impressions. If you roam about aimlessly your recollections of the fair will be wholly chaotic. In case you are fond of art, two days spent in the Art Hall will be to some extent an education in the styles of the modern schools, whereas an hour or two yespent in the hard processes, or mineralogy, or chemistry, or caramics, or whatever it may be after a general glance of the exhibition, stick to the department that interests and benefits you most. "How long will it take to see everything thoroughly?" the reader may

At its conclusion you will be familiar with the best arts and industries of the entire globe. The cost of a months' stay in Philadelphia, with daily visits to the Exhibition, will be as follows. supposing the visitor to practice such economy as is not inconsistent with com-fort and with the objects of his visit:

THE extent of the revival in the export of cotton goods since the beginning of 1876 is well indicated by a table issue from the Bureau of Statistics at Washington, covering this trade for three months. The number of vards exported in the first three months of 1875 was 8,629,450, the value \$1,074,998; in the first three months of 1876 the yards amounted to 20,178,903, the value to \$1,959,022. There has been an increase therefore, of about two and one-third times in amount and nearly two times in value. 'The increase is mostly in "un-colored goods," namely, from 6,410,000 yards to 17,616,000, and from \$543,732 o \$1,491,614; the average valuation of

The Baltimore and Ohio company re-

The Baltimore and Ohio company refused to lease the road upon the terms proposed by the directors of the Valley company, and as no other arrangement for operating it was made, the road had necessarily to be closed. Mr. P. P. Pendleton, president of the Valley road, went to Staunton on Friday, and was present at the withdrawal of the rolling stock. Mr. Pendleton placed the road in charge of watchmen at Staunton and Harrisonburg, with instructions to take care of the property of the company. The excitement was greatest at Staunton upon the reception of the news of the failure of negotiations to run the road, but under, the circumstaces was not altogether unexpected. The resolution of the atockholders terminating the arrangement with the Baltimore & Ohio being peremptory, and the directors having no power to lease under the resolution for a longer period than two years, the action of the directors of the Valley road to the more thinking people was considered as the best that could have been done under the circumstances.

Hopes are entertained at Staunton and in Baltimore that some arrangement will be made at the stockholders' meeting on the 30th of May by which the road will call be prefuted.

T. B. Logun, Esp.:

DEAR HIN-I wrote to you some time since for a bottle of Rendinger's Fulld Extract of Sarangarilla, and must say that it has acted upon me like a charm. I have been suffected for near two years with Dyspepsia; two-thirds of the time I womited from one to three times a day. I had given up the idea of ever getting well, and indeed my Irlends had given up all hopes of my ever getting well again. Added to this, I suffered with Scrotials every many than the second of the second second with the second second with the second second second second second second my more than the second second my my more than the second sec No, 2006 Main Street.
